REGISTERED POST/BY HAND

No.N-11028/1/2008/IHSDP/JNNURM –Vol. XIII
Government of India
Ministry of Housing and Urban Poverty Alleviation
JNNURM Directorate

Room No. 201 G Wing
New Delhi, dated 17th November, 2008

OFFICE MEMORANDUM

The undersigned is directed to enclose herewith a copy of the minutes of the 41st meeting of the Central Sanctioning Committee of Ministry of Housing and Urban Poverty Alleviation held on 22nd October, 2008 under the Chairmanship of Secretary (HUPA) to consider and sanction projects under Integrated Housing and Slum Development Programme (IHSDP).

2. The appraisal agencies (i.e. HUDCO and BMTPC) are requested to convey the decisions of the Central Sanctioning Committee to the State implementing agency/nodal agency for IHSDP to take appropriate follow up actions as per the minutes of the meeting.

3. A copy of the minutes is forwarded to the Secretaries in-charge of BSUP and IHSDP in the States/UTs with a request to take further follow up action.

MINUTES OF THE 41st MEETING OF THE CENTRAL SANCTIONING COMMITTEE (CSC) OF INTEGRATED HOUSING AND SLUM DEVELOPMENT PROGRAMME (IHSDP) UNDER JAWAHARLAL NEHRU NATIONAL URBAN RENEWAL MISSION (JNNURM)

Nirman Bhawan, New Delhi, 22nd October, 2008

The 41st meeting of the Central Sanctioning Committee (CSC) of Integrated Housing and Slum Development Programme (IHSDP) under Jawaharlal Nehru National Urban Renewal Mission (JNNURM) was held under the Chairpersonship of Secretary, Ministry of Housing and Urban Poverty Alleviation in New Delhi on 22nd October, 2008. List of participants is at **Annexure – I**.

2. In his welcome address, Joint Secretary (JNNURM) & Mission Director informed the Committee that Secretary (HUPA) had detailed review of JNNURM projects with State officials of Maharashtra and Andhra Pradesh. Emphasis has been given on how to mainstream poverty issues and provide common amenities to the urban poor. Regarding enquiries from States about the increase in the cost of dwelling units under IHSDP proposed, he informed that any decision in the matter will be implemented prospectively. Joint Secretary (JNNURM) & Mission Director reiterated the important points discussed in the earlier meetings of CSMC for implementation by the States/ULBs (**Annexure-II**).

3.1. Chairperson, CSC, and Secretary (HUPA) in her opening remarks requested the representatives of the States to preface their presentations with information on the pace of progress in implementation of the projects, problems faced and the action taken to remedy them. She stated that action proposed/taken for convergence of Health, Education and Social Security with BSUP and IHSDP projects should be an important component of DPR. Construction of school and health centres, based on the accessibility of such facilities to the slum dwellers and dependency load as per norms, should be taken up at the initial stage of the projects itself.

3.2. In reply to a query as to whether Code of Conduct of Election would apply to the BSUP/IHSDP projects, it was clarified by the Committee that the Code of Conduct of Election is to ensure that undue favour is not given to a particular political party. JNNURM (BSUP and IHSDP) is an ongoing programme and accordingly the Central

Sanctioning and Monitoring Committee and Central Sanctioning Committee can continue with its normal activities of sanctioning new projects.

3.3. Chairperson, CSC and Secretary (HUPA) said that the Central assistance for JNNURM projects has to be taken as an incentive for attracting State funding and directing State attention to the magnitude of the problems that the urban poor are facing and towards finding solutions to these problems. The Central funding alone would not be sufficient to meet the challenges.

3.4. Secretary (HUPA) reiterated the need for augmenting the pace of implementation of the programme to achieve the targets. Special attention should be paid to achieving the Mid-Term Targets communicated earlier to the State Chief Secretaries [vide DO. Letter No.N-11027/42/2007-BSUP/JNNURM dated 8th August, 2007 from Secretary (HUPA)]

3.5. Regarding approval of further projects to States in the NER region, Chairperson, CSC and Secretary (HUPA) said that the Ministry has already taken up with Planning Commission for making adequate allocation of fund. The existing allocation for the States in NER region is insufficient and the allocation for the region as a whole is less than the mandatory 10% of the total allocation under a particular programme. If an NER region State, whose allocation has been exhausted, comes up with new project proposals under BSUP and IHSDP, they may be sanctioned, in-principle, within the overall allocation of ACA under BSUP and IHSDP for the NER region. Release of fund for such projects would be effected only after the Planning Commission takes a decision regarding the revision of allocation for such States.

3.6. Secretary (HUPA) urged all the States/UTs to give priority for conducting socio economic survey before formulating projects. This would facilitate in assessing the needs of the beneficiaries, especially the requirement of schools and health centres. Based on the survey, biometric identification of the beneficiaries should be conducted. She said that it would be ideal if a uniform format is designed for biometric identification leading to a uniform database across the country.

4. For the meeting, 30 new project proposals were put up in the Agenda:-

Name of the State	Number of proposals
1. Andhra Pradesh	8
2. Arunachal Pradesh	1
3. Maharashtra	6
4. Uttar Pradesh	15
Total	**30**

Proposals seeking release of 2nd instalment for 8 IHSDP projects in Kerala and 1 project in Andhra Pradesh were also put up in the Agenda. Brief details of the agenda are at **Annexure-III.**

Maharashtra

5.1. The representative of the State Government of Maharashtra made a presentation on the 6 project proposals. The Committee observed the following:-

- The State/implementing agency should furnish a certificate that the beneficiaries have the capacity and are able to pay 25% of the cost of dwelling unit as beneficiary contribution as the proposed amount is on the higher side. They should also certify that all the beneficiaries come under the eligible category;
- Education and Health sectors need to be addressed in detail (such as requirement of nursery, primary/higher secondary at town level as well as slum level, capacity of the available schools/health centres and their accessibility to the slum dwellers). Corresponding to the health and education profile of the slums, convergence under the Health and Education programmes should be undertaken.
- The State/ULB should indicate the use of vacated sites after relocating the beneficiaries at Pauni.

5.2. The representative of the State Government informed that the beneficiary contribution would be reduced on account of increased share of the State Government. Regarding use of vacated land in Pauni, the ULB informed that the vacated sites after relocating the beneficiaries will be used for providing housing units to the beneficiaries at present residing at encroached areas/objectionable land. Accordingly, **the Committee approved the projects and the abstracts of the approved projects are at Statement-I to VI of Annexure-IV. First instalment of ACA for**

the project at Lonar will be released on getting approval for conversion of agriculture land to residential use.

<u>Uttar Pradesh</u>

6.1. Representative of the State of Uttar Pradesh made a presentation on 15 IHSDP projects. He also informed the Committee about the status of implementation of reforms. The Committee observed the following:-

- Biometric identification of the beneficiaries has to be done within 2 months;
- Education and Health sectors need to be addressed in detail (such as requirement of nursery, primary/higher secondary at town level as well as slum level, capacity of the available schools/health centres and their accessibility to the slum dwellers). Corresponding to the health and education profile of the slums, convergence under the Health and Education programmes should be undertaken.

6.2. On reforms, Chairperson, CSC said that it appears the State is silent on the ULB level reforms. Efforts should be made to implement ULB level reforms. Two pro-poor reforms (i.e., (i) internal earmarking within urban locally body budgets for basic services to the urban poor and (ii) provision of basic services to the urban poor including security of tenure at affordable prices, improved housing, water supply, sanitation and ensuring delivery of other already existing universal services of the government for education, health and social security) is to be implemented at the ULB level. To ensure that such reforms achieve the desired pace of implementation, ULBs need to be strengthened. Presently, the State is meeting the ULB share in all the BSUP and IHSDP projects. However, the State need to think about revitalizing the functioning of ULBs so that they are able to discharge the functions devolved to them leading to better urban local governance. Without such reform, the JNNURM would remain as a mere upgradation programme, and none of the policy change it hoped to drive would happen. However, considering that Uttar Pradesh was one of the more backward States with a perceived larger share of slums and urban poor, to hold up urban poor slum upgradation for the rest of the reforms would be retrograde. Such a step may become necessary if the Memorandum of Agreement by the State with the Ministry remained unachieved.

6.3. The State has informed that in case of deficiency in health and education sector, convergence with other Central/State Government programmes will be undertaken. Accordingly, the Committee approved

these projects and the **abstracts of the approved components are at Statement VII to XXI of Annexure-IV.**

Bihar

7.1. The Representative of the State of Bihar made a presentation on two IHSDP projects. Regarding already approved BSUP/IHSDP projects, the representative of the State informed that in most of the projects, initially nobody was responding to the tenders on account of steep rise in price of steel, cement, etc. Chairperson, CSC and Secretary (HUPA) informed the representative of the State that any escalation in the cost due to time and cost over run has to be met by the State/ULB from their source. It was clarified that the present proposal by the Ministry to increase the cost of housing units under IHSDP would be given only prospective effect. On the present projects, the Committee observed the following:-

- The State should provide details of implementation of reforms;
- The cost should be as per SOR authenticated by a competent authority (rates for some items quoted in the DPR was found to be very high);
- The State/ULB should make proper tie-up with Departments concerned for school and health care facilities. This should be made on the basis of a socio economic survey of the slums;
- The lay-out and design of the projects needed modification in consultation with the appraisal agency.
- In flood-prone areas, instead of digester (which may cause environmental hazard when choked in flood water), alternative system for sewage disposal such as septic tank may be considered. The cost of digester appeared unreasonably high and needed a re-look;
- The technical scrutiny of the proposal by the Chief Engineer (PWD) of the State was essential. Without that, the figures presented by the consultant could be discounted by the State Department at a later time; and
- Based on the details of the socio economic survey action biometric identification of the beneficiaries have to be conducted.

7.2. To enable the State/ULB to come up with a modified proposal the Committee deferred the two projects.

Arunachal Pradesh

8.1. The representative of the State of Arunachal Pradesh made a presentation on the IHSDP project in Roing town. He informed the Committee that 4 schools existed in the periphery of the proposed site. The Committee observed the following:-

- SLCC approval for the project has to be obtained;
- A mapping of the children from the slum area is to be prepared to find out whether the existing schools would be accessible to them. Where found necessary, the State/ULB should provide additional infrastructure in the existing school or alternatively construct schools in the area with tie-up from the Departments concerned;
- On the basis of socio economic survey, requirement of community centre may be re-looked.
- Locally available suitable material may be used in the construction of community centre in order to reduce the cost;
- Lay-out and design of the livelihood centre may be modified based on the requirement of the beneficiaries. Care should be taken to develop skills that will enable the beneficiaries to engage in city-oriented services such as TV repair, plumbing, etc. Apart from doing the traditional jobs like weaving, engagement in city-oriented services would help hem earn more;
- Detailed service plan of the project has to be provided;
- Bill of Quantities has to be furnished to establish accuracy of cost estimates; and
- State/ULB should ensure purification of drinking water sources from springs, etc.

8.2. **To enable the State to come up with requisite details and modification, the Committee deferred the proposal.**

Andhra Pradesh

9.1. Representative of the State of Andhra Pradesh made a presentation seeking Central assistance for infrastructure components. The Committee decided that only where housing under State programme (like Indiaramma) or Central scheme like VAMBAY has been provided Central assistance can be sought for providing infrastructure facilities. The representative of the State made a presentation on the stage of construction of houses in various sites where infrastructure is proposed to

be provided under IHSDP. She also made a presentation on the physical progress of IHSDP projects approved earlier. Reforms as per MoA are progressing. Regarding reservation of land, the State was requested to furnish a status paper on the modalities of implementation of the reform. She also made a presentation on the proposal for accessing Central assistance under JNNURM during the current financial year.

9.2. The Committee observed the following:-

- The Central assistance is sought only for infrastructure components. Considering the limited balance of Central share the Central assistance would be limited to Rs.5 crore for the projects at Repalle, Kadappa (Mamillpalli housing colony), Palwancha and Bodhan as the DPR has sought Central assistance upto Rs.10 crore

9.3. The State/ULB has agreed to limit the Central assistance to Rs.5 crore per project; accordingly, revised costing would be furnished. Thus the Committee approved the proposals **and the abstracts of the approved components are at Statement-XXII to XXIX of Annexure-IV.**

Release of 2nd instalments

10.1. Deputy Secretary (JNNURM) made a presentation on the proposals seeking release of 2nd instalment for 8 IHSDP projects in Kerala and 1 project in Andhra Pradesh. He informed the Committee that out of the 8 projects, 5 projects have achieved the requisite physical and financial progress making them eligible for release of 2nd and final instalments. In the remaining projects, full amount of ACA has not been passed on to the ULBs concerned. On the progress of reforms, he requested the State representative to make a presentation.

Kerala

10.2. The representative of the State of Kerala informed the Committee that the State/ULB has achieved progress in the implementation of reforms as per the timelines. Regarding internal earmarking within the local body budgets for basic services to the urban poor, he reiterated the State's position the existing earmarking under various components (State Plan allocation under anti-poverty sub-plan and earmarking at the municipal level) would actually be much higher than 25% and this varies between Municipalities depending on their demographic profiles. Regarding release of Central Assistance to the ULBs in the remaining 3

projects, he informed the Committee that the amount has not yet been released by the State Finance Department. He further informed that these projects have, however, achieved physical progress by utilizing State/ULB share.

10.3. The Committee approved the proposal for release of 2nd installment for 5 IHSDP projects in Kerala (i.e., Attingal, South Paravur, Koyilandy, Koothuparamba and Kanhangad). Details of the second installment approved are at **Annexure-V. For the project in Attingal, ACA will be released after releasing the balance amount of State Share (against Rs.15.65 lakh the State has released Rs.14.19 lakh). This condition would also apply to all projects in which State share had not been released in proportionate amount to Central release as per project sanction.**

Andhra Pradesh

10.4. On the proposal seeking release of 2nd and final instalment of ACA for the IHSDP project in Proddatur Town, Andhra Pradesh, Deputy Secretary (JNNURM) informed the Committee that 44% of the work has been completed which matches with the financial achievement. On the progress of implementation of reforms, representative of the State informed that the State/ULB has achieved progress as per the timelines in the MoA.

10.5. The Committee approved the proposal and the details are at **Annexure-V. 2nd instalment of ACA would be released on (i) receipt of a written documentation from the State of Andhra Pradesh regarding three pro-poor reforms and (ii) releasing the remaining amount of State share (against required State share of Rs.310.65 lakh the State has released Rs.300.44 lakh).**

10.6. Chairperson, CSC and Secretary (HUPA) emphasized that as the core of JNNURM is urban reform, the State Governments/ULBs must implement the reforms stipulated under the Mission as per the timelines agreed to in MOAs and any deviation in the same should be addressed expeditiously. She also reiterated that the projects sanctioned have to be executed as per sanctioned DPR and any escalation in costs would need to be borne by the State/ULB.

11. Concluding the meeting, the Chairperson of CSC and Secretary (HUPA) reiterated the need to gear up the implementation process and

come up with proposals for second and subsequent installments. She urged the State/UT Nodal Agencies/ULBs/parastatals/other agencies implementing JNNURM to execute projects without time and cost overruns so that the benefits intended for the urban poor reach them expeditiously. The Chairperson also emphasized the need for implementing the pro-poor reform under JNNURM relating to creation of Basic Services to the Urban Poor Fund and reservation of land for EWS/LIG housing.

12. The meeting ended with a vote of thanks to the Chair.

****

9/67

ANNEXURE-I

LIST OF PARTICIPANTS IN THE 41st MEETING OF CENTRAL SANCTIONING COMMITTEE (CSC) OF IHSDP HELD UNDER THE CHAIRPERSONSHIP OF SECRETARY (HUPA) ON 22.10.2008

1. Ms. Kiran Dhingra, Secretary, ... **in Chair**
   Ministry of Housing and Urban Poverty Alleviation

49. Shri M. Jayachandran, Deputy Director, Ministry of HUPA.

11/67

ANNEXURE-II

IMPORTANT POINTS REGARDING FORMULATION AND EXECUTION OF BSUP AND IHSDP PROJECTS

- In case there is time constraint, a regular socio-economic survey can be preceded by *a rapid survey for identifying beneficiaries, their main and subsidiary occupations, their educational profile and felt-needs so as to design appropriate social infrastructure for each project.* Willingness of the beneficiaries should also be taken for any rehabilitation/relocation projects.
- Affordability of the urban poor should be kept in view while working out Beneficiary Contribution. Overall construction cost of the housing unit should be kept at a minimum. The housing component should generally be at least 50% of the total project cost with a view to giving primacy to provision of shelter to the urban poor except where housing units have already been constructed/are being constructed under VAMBAY or other EWS scheme of Central or State Governments. Further, considering the difficulties and special needs of the urban poor at some locations, clusters having 15 housing units can also be considered.
- Each project should be accompanied by a list of beneficiaries based on a socio-economic survey and ULBs should go for bio-metric cards, wherever feasible, to avoid the possibility of sale/misuse of housing units allotted to properly targeted beneficiaries. The list should be notified and placed in the website of the ULB/JNNURM.
- The layout plan must be socially cohesive and facilitate social interaction. Efforts may be made for providing at least 30% open spaces with 15% green area in the layouts and adequate social and livelihoods infrastructure.
- Adequate space must be provided for community activities, informal sector markets, livelihood activities, pen for animals (if permitted and required), space to take care of convergent services such as health, education and recreation conforming to the specific needs of each of the slum pockets and their beneficiaries.
- The houses proposed should have two rooms, balcony, kitchen and separate bathroom and latrine, individual water connection and sewer connection. Aspects such as storage space for keeping things in rooms/kitchen, location of kitchen, location of toilet and bathroom in the houses to facilitate privacy, independent access from both rooms to toilet and bathroom, leaving a small space for

fitting exhaust fan in kitchen and toilet, balcony for drying clothes etc., are some of the nuances that can be thoughtfully incorporated in the design of the houses for the poor.

- The State authorities/ULBs may adopt some of the innovative designs and layouts of houses, multi-purpose community centres, informal sector markets and animal pen, etc., prepared and compiled by HUDCO and BMTPC. The Toolkit published may be referred to.
- The State authorities in consultation with appraisal agencies should ensure that necessary clearances such as environmental clearance, Coastal Regulation Zone (CRZ) regulation clearance, land use clearance, etc., are obtained. They should also ensure that necessary technical approvals are secured from the competent agencies as per State PWD Code.
- Since these projects are required to be generally completed in 12 to 15 months, it is generally expected that any escalation of the project cost is borne by the State Government/ULB concerned. For reducing escalation in the cost of project, the following option could be exercised:-

  i) Purchasing materials (cement, steel, sanitary pipes, electrical items) in bulk, wherever considered prudent and feasible with a view to reducing cost;
  ii) Encouraging labour contribution from the beneficiaries under the supervision of qualified personnel;
  iii) Bifurcating tendering (between housing component and infrastructure component) with a view to reducing the possibility of time and cost overruns; and
  iv) Creating/using a revolving "Basic Services for Urban Poor (BSUP) Fund" earmarked out of the municipal budget and supplemented by other innovative measures like cross subsidization for meeting escalation.

- Wherever informal sector markets are taken up as a part of social infrastructure, their operation on a time-sharing basis by inhabitants for enabling wider coverage of the beneficiaries can be considered by the ULB concerned.
- Adequate provision should be made for solid and liquid waste disposal and digester technology can be adopted in place of dual-pits/septic tanks wherever feasible.
- Road-side plantations with tree guards are advisable.

- Responsibility of the technical specifications (adherence to State PWD Code) and their approval by the competent authority lies with the ULBs/State Level Nodal Agency. The appraisal agencies must ensure that technical specifications are duly approved by the technically competent authority.
- **Prime Minister's New 15-Point Programme for the Welfare of the Minorities:** *An important objective of the new programme is to ensure that the benefits of various government schemes for the underprivileged reach the disadvantaged sections of the minority communities.* In this regard, care should be taken to take up clusters of minority beneficiaries to the extent possible. Wherever feasible, efforts should be made to allocate upto 15% of targets and outlays under BSUP and IHSDP for the minorities. Similarly, priority should be given to accommodate physically challenged beneficiaries.

- **Capacity Building Activities:** In the year 2006-07, the Ministry of HUPA had released fund to the State Governments for capacity building activities including Research and Training towards implementation of BSUP and IHSDP projects. Unless the States submit utilisation certificates for the funds released earlier, further release of Central Assistance would be held up, as utilisation certificates have to be furnished within 12 months from the date of closure of the financial year to which financial sanction pertains.
- **Status of Project Implementation:** The States/ULBs should present Quarterly Progress Reports/Monthly Progress Reports as per prescribed format, without fail to enable the Ministry to report to Prime Minister's Office in time. Further, one page abstract on the status of implementation of projects & reforms must be presented before presenting the details of project proposals in the meetings of Central Sanctioning & Monitoring Committee/Central Sanctioning Committee.
- **Setting up of PMU/PIA/PIU:-** The States should submit proposals to the o/o OSD (JNNURM) which will get the same appraised; and bring up before the Central Sanctioning & Monitoring Committee/Central Sanctioning Committee. Transparent method should be adopted in the selection and appointment of professionals in PMUs and PIUs. Such appointments should not be permanent in nature but only in terms of short-term appointments. Such appointments should not be seen as a place for parking dead-wood. Each appointment should be based on prescribed terms of reference and the deliverables

should be measured. Various activities, tasks and outcomes have to be clearly spelt out in the TORs. States/ULBs should exercise utmost caution in making such appointments on a contract basis. The States/ULBs should try and ensure minimum expenditure by selecting/appointing professionals at an appropriate fee rather than immediately opting for the maximum amount indicated by the Centre. However, the calibre of such professionals should be of a good level. If need be, qualified persons from Central/State Government/ULBs could be posted on deputation. The personnel with PMUs/PIUs should work in tandem/collaboration with the State Level Nodal Agency.

- **Fees for Preparation of DPRs:** The States should submit proposals to the concerned Appraisal Agency which had appraised the projects. The Appraisal Agency has a crucial role in examining the claim with particular reference to the various stages of improvement and modifications that were brought out in the DPRs before they were finally approved by the Central Sanctioning and Monitoring Committee/Central Sanctioning Committee. The Appraisal Agency will submit proposals to the Ministry for releasing Central Assistance towards the cost of preparation of DPRs (both in the case of DPRs prepared by in-house personnel as well as by consultants). These will be considered by the Central Sanctioning and Monitoring Committee. After approval, recommendation will be sent to Ministry of Finance/Ministry of Home Affairs for releasing Central Assistance out of the ACA allocation for the particular State/UT in the case of projects prepared by consultants. The Central Assistance for DPRs prepared through in-house personnel of the States would be released from out of the 1% JNNURM fund in the Budget of Ministry of HUPA as decided in the Central Sanctioning & Monitoring Committee/Central Sanctioning Committee meetings earlier.
- **Community Development Network (CDN):** The State should prioritise and get necessary approval from SLSC/SLCC to the proposals related to Community Development Network (CDN). Such proposals received in the Ministry of HUPA will be appraised by a team working under the GOI-UNDP Project on National Strategy for Urban Poor coordinated by the National Project Coordinator/Deputy Secretary (JNNURM). The reports will then be placed before the Central Sanctioning & Monitoring Committee.

Community Development Networks should be promoted so that the dynamics of the CDN lead to fraternity in the neighbourhoods and the issues of alienation of all sorts are eliminated. CDN should work towards better inter- and intra- relationships in colonies to get over the dividing forces. This will strengthen a feeling of solidarity among the residents.

- **Third Party Inspection and Monitoring (TPIM) mechanism:** TPIM should be instituted to bring transparency and quality in the implementation of BSUP and IHSDP projects. The Ministry would give necessary assistance to the States for TPIM. Toolkit has been prepared and communicated to the State Governments.
- **Quality of Projects:** Housing for the poor does not mean poor quality housing. Utmost emphasis must be given to the quality of houses for the poor. A vector-free atmosphere and healthy living environment should be ensured in the housing projects under BSUP/IHSDP.
- **Socio-economic Survey:** No efforts should be spared for conducting socio-economic surveys of potential beneficiaries including preparation of bio-metric cards. Such surveys should emphasize housing, health, educational and livelihood profiles of the urban poor. The surveys would assist in designing good BSUP/IHSDP projects by taking into account important aspects such as dependency load in the existing schools and capacity of hospitals for in- and out-patients, need for multi-purpose community centres including livelihood centre and informal sector market. *HUDCO and BMTPC have developed good designs of houses and various types of social infrastructure which could be appropriately used while formulating project proposals. A Toolkit has also been published.*
- **City Poverty Reduction Strategy Report.** The city of Rajkot (Gujarat) has brought out a City Poverty Reduction Strategy Report. Other cities/towns may bring out similar reports.
- **Convergence of Health, Education and Social Security:** It is necessary to integrate provisions of Health, Education and Social Security with Housing for the Poor to enable them to lead a better quality of life. The Urban Local Bodies and the State Governments have a critical role to play to ensure proper convergence of facilities under the already available schemes for education, health and social security implemented through different departments/fields. The projects should list out the deficiencies in terms of access to school, primary health centre, provision of social welfare measures so that timely remedial measures in accordance with the socio-economic

survey can be taken up. Provision of adequate infrastructure for school and health care should be taken at the formulation of the project itself. A mere statement that adequate number of schools/health centres is available in the vicinity of the proposed housing colony would not be sufficient. The State/ULB/implementing agency should ensure that such facilities available in the vicinity are also accessible to the slum dwellers. Similarly proper convergence of schemes in the realm of social security such as old age pension, health insurance, maternity benefit scheme, etc. should be accessed to benefit the urban poor selected under JNNURM.

- **Projects for in-situ development:** States should come up with projects for in-situ development with good lay-outs and designs. The emphasis should be to provide a better and supportive atmosphere for living. The in-situ development should not end up with creation of another cluster of houses without access to water, sanitation and social infrastructure.
- **Sense of belongingness:** To create a sense of belongingness, the slums may be named in consultation with the intended beneficiaries. Provision of a low cost enclosure around open spaces in a slum pocket being covered under BSUP/IHSDP could be considered by a State/ULB, if the cost is not prohibitive.
- **Three reforms core to the urban poor:** Special attention should be paid for the implementation of the three reforms stipulated under JNNURM that are critical to the urban poor: (i) internal earmarking within local body budgets for basic services to the urban poor; (ii) provision of basic services including the 7-point charter in accordance with agreed timelines; (iii) earmarking at least 20-25% of developed land in all housing projects (both public and private agencies) for EWS/LIG category with a system of cross subsidization. The poor are squeezed out of the urban land market and the issue of land for housing the poor and informal sector activities and security of land tenure must be accorded top-most priority by the State Governments.
